Strathcona Swim School

Strathcona Swim School is a learn-to-swim program that incorporates stroke development and water safety. Classes are open to the local community for children aged four and over.

Our mission is to equip students with life skills that allows them to enjoy activities and assists them in achieving success in their active endeavours.

Strathcona Swim School Staff

All Strathcona Swim School Instructors are AustSwim or equivalent qualified. They bring experience and knowledge to the program.

Every effort is made to have the same instructor each week, with staff committing themselves to the term. Unfortunately, things happen with illnesses, university timetable changes and other circumstances that may lead to a change in instructor.

Our teachers endeavour to provide a positive and enjoyable lesson to the students within the classes, maintaining a professional approach to their teaching.
